(54) Title: A METHOD FOR COMPARING A TRANSCRIBED TEXT FILE WITH A PREVIOUSLY CREATED FILE

(57) **Abstract:** A method to creating a final text from an audio file comprising (a) transcribing the audio file into a transcribed text file using a speech recognition software; (b) loading a first window with the transcribed text file; (c) loading a second window with a previously created text file; (d) comparing the transcribed text file and the previously created file to find differences between the text in the transcribed text file and the text in the previously created text file; (e) correcting the transcribed text file based upon the differences to create the final text. The method may also include searching for the previously created text file.
